

**GMO Testing Price List (EU)**  
**Prices in €**

**Sample preparation:**

Grinding and homogenization	€ 20
DNA extraction (necessary for each sample)	€ 79

**Qualitative Screening Analysis:**

1 Primer (e.g. 35S)	€ 45
2 Primer (e.g. 35S / NOS)	€ 90
3 Primer (for all Canola / Rapeseed)	€ 130
4 Primer (for all GMOs)	€ 170

**Single-Threshold-Analysis:**

(Choice of detection threshold, e.g., 0.1%)

1 Primer (e.g., 35S)	€ 60
2 Primer (e.g., 35S / NOS)	€ 110
3 Primer (for all Canola / Rapeseed)	€ 150
4 Primer (for all GMOs)	€ 190

**Semi-Quantitative Triple-Check Analysis:**

(Choice of two detection thresholds, e.g., 0.1% and 1.0%)

€ 200

**Quantitative Analysis:**

1 Primer (e.g. 35S)	€ 140
2 Primer (e.g. 35S / GA21)	€ 240

**Qualitative/Quantitative Analysis:**

(If the result is negative the price is the same as for qualitative screening.)

1 Primer (e.g. 35S)	€ 180
2 Primer (e.g. 35S / GA21)	€ 330

**Varietal ID<sup>sm</sup>-Analysis**

**Genetic ID** offers Varietal ID analyses for commercially available unapproved varieties by geographic regulatory regions, such as the European Union. **Genetic ID** also has the expertise and technological capabilities to build a custom test to suit specific GMO detection requirements. Prices for Varietal ID Testing are available upon request from any Genetic ID account manager or by requesting the **Varietal ID Price List** by eMail (see below).

**Additional Primers:**

Qualitative screening primers	€ 45
Threshold analysis	€ 50
Semi-quantitative <i>Triple-Check</i> analysis	€ 80
Quantitative analysis	€ 100

**Additional Surcharges:**

Additional thresholds	€ 50
Additional preparation for fats, oils, and lecithin	€ 50
Additional reference genes	€ 50
Preparation of samples to be composited for a single test	€ 50

**Turn-around Times (TAT):**

<b>Standard</b> for most sample types	3 - 5 business days
<b>Express*</b> – 200% surcharge for most sample types	24 hours (business days only)
<b>Rapid</b> – 100% surcharge for most sample types	36 hours (business days only)

\* Please note: Express processing available by prior arrangement only.

For volume discount information is available from our account managers.

For tests conducted in the laboratory in Germany, the applicable German Value Added Tax (VAT / USt) will be charged to clients based in Germany. Tests for other EU clients will be free of VAT provided their VAT taxation ID number is received with the first order for tests. Clients not based in an EU country will not be charged any VAT. Genetic ID's own VAT / USt ID number is DE 215 248 767.
