

Technical Correction of Instructions to make Motions on Final Revision Draft of the IFOAM Accreditation Criteria (IAC)

With a letter dated, 25th February 2005, eligible parties (IFOAM members, the ACBs the IOAS and the World Board) were invited make motions on the final revision draft of the IAC.

This notice is to inform you that the instructions to vote are incorrect when saying that motions can only be made on text revised by the Criteria Committee (CC). Instead, motions can be made on:

1. Areas that have been revised by the CC.
2. Topics that were subject to comments in the first and second revision draft but might not have been revised by the CC.

However, it is not possible to make motions on text that has neither been revised by the CC nor been subject to comments.
