

## The New EU Regulation for Organic Food and Farming

Schlueter, M.<sup>1</sup> & Blake, F.<sup>2</sup>

Keywords: organic standards, EU Regulation on organic farming, revision of organic regulation

### Abstract

*The European Council adopted the new Council Regulation EC 834/2007 on organic production and labeling of organic products in June 2007, which will come into force at the beginning of January 2009. This regulation will define the new legal basis for organic production in Europe and products to be imported to Europe. The decision making process took more than two years. The new organic regulation will bring some changes compared to the current organic regulation 2092/91. The IFOAM EU Group was intensively following up and influencing the process on the revision of the regulation.*
