The IFOAM Organic Guarantee System assures organic integrity internationally. In the rapidly growing environment of marketing and trade of products claiming to be "organic," IFOAM provides a market guarantee of the integrity of organic claims. The Organic Guarantee System (OGS) unites the organic world through a common system of standards, verification, and market identity. It fosters equivalence among participating certifiers, paving the way for more orderly and reliable trade.

Diane Bowen OGS Manager and World Board member (Ong Kung Wai) will present the process of the OGS Revision. The session will give the opportunity to get insight in the process.
