

International Cooperation for Development and Organic Agriculture **Wednesday, June 18th**

1. Poster exhibition

The objective of the poster exhibition is to present examples of international cooperation projects focused on Organic Agriculture principles and techniques. The projects have been selected by a technical commission following the four principles of Organic Agriculture: Health, Ecology, Fairness and Care. A particular attention has been given to projects including also other elements like Fair Trade or Biodiversity conservation.

The exhibition will be enhanced by the presence of project representatives (producers and technicians) from Developing Countries. The representatives will present their projects included in the poster exhibition, having also the possibility to display and sell their products in the Organic Market Festival taking place during the week-end (June 20th - 22nd).

The exhibition will be open for the entire duration of the Congress, **in Piazza Matteotti** in the Modena city centre and guided visits will be organized for Congress participants and for the public.

The exhibition is organized by Consorzio ModenaBio, ICEA (Institute for Ethical and Environmental Certification) and Tavolo Equobio (Italian Network of Organic, Fair Trade and International Cooperation organizations).
